

Stainless-Steel Pointed Shower Drain

Common pointed shower drains are made of plastic, which does not have a variety of designs, and also after a while, it will change color and become difficult to clean. Stainless-steel pointed shower drains have a variety of designs and dimensions and are easy to clean and resistant to chemicals. These products have a beautiful and luxurious appearance and are available in matte or scratched covers, ceramic and stone insert. Tecnomedex has manufactured this type of shower drain in different dimensions and sizes, the specifications of which are described in the table below. Our company has the ability to manufacture ceramic or stone insert point shower drain with special dimensions and in accordance with the request of our esteemed customers.
